

Integral (moulded-in sinks) You Can Choose From

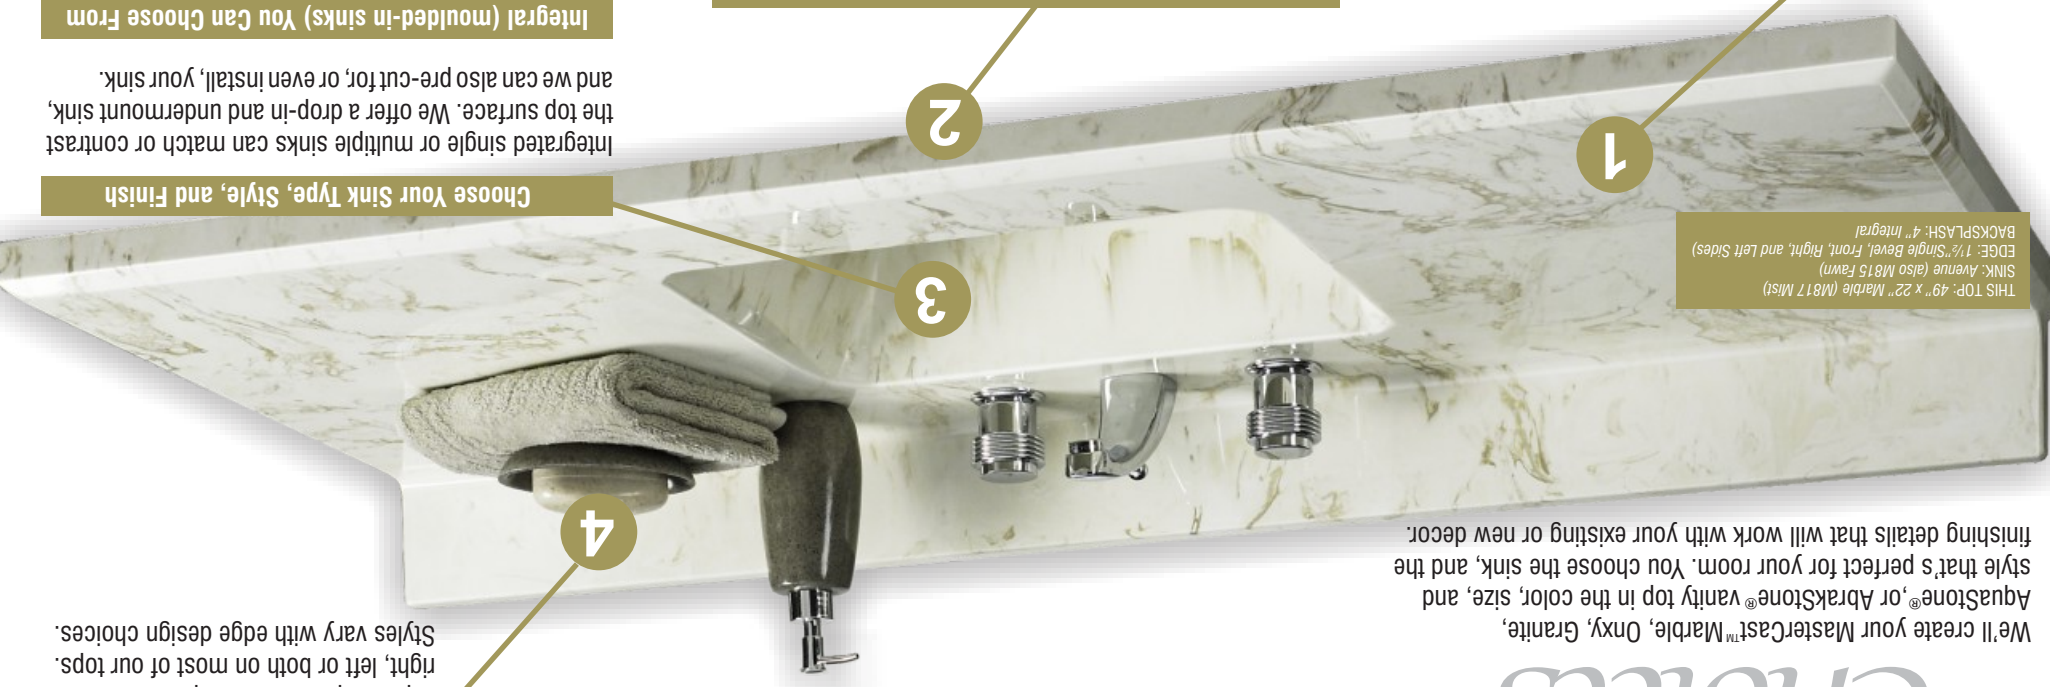

Choose Your Sink Type, Style, and Finish
Integrated single or multiple sinks can match or contrast the top surface. We offer a drop-in and undermount sink, and we can also pre-cut for, or even install, your sink.

Edge Treatments Available for Your Top
Choose an edge that complements your vanity.

Please note that some options shown here are not available on all tops. A sales associate will help you with your choices.
Your top can be made to simulate marble, onyx, or granite. AbrakStone™ even gives you a choice of gloss or matte finish. AquaStone™ has a tiny metallic glitter for exceptional depth and sparkle.
For printed samples of the most popular colors, see inside this brochure. A complete range of actual material samples are available in store.

Choose the Materials, Textures, and Colors

THIS TOP: 49" x 22" Marble (M817 Mist)
SINK: Avenue (also M815 Fawn)
EDGE: 1 1/2" Single Bevel, Front, Right, and Left Sides
BACKSPLASH: 4" Integral

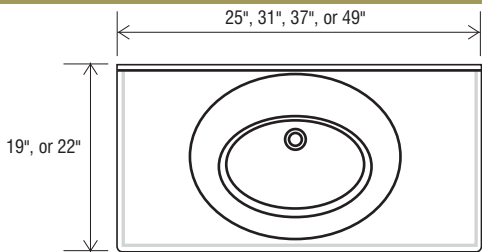

We'll create your MasterCast™ Marble, Onyx, Granite, AquaStone®, or AbrakStone® vanity top in the color, size, and style that's perfect for your room. You choose the sink, and the finishing details that will work with your existing or new decor.

Beautiful Choices

Custom or Standard configuration?

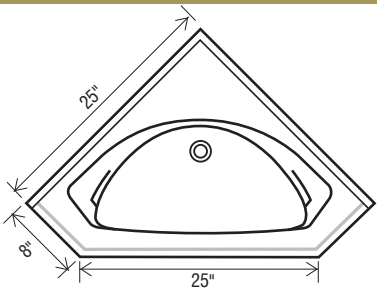

Although all of our vanity tops are custom cast, standard sizes and sink configurations are more economical to produce. If your top requirements are as shown below, it will qualify as a standard top.

Wall Cabinet Top With Single, Centered Sink

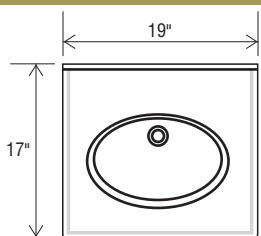

Recessed Sink: 10.25" x 15.5" in 19" Top, 12" x 17.25" in 22" Top

Corner Cabinet Top With Single, Centered Sink

Compact Cabinet Top With Single, Centered Sink

Non-Recessed Sink: 10.375" x 15.125"

Even with these standard configuration tops you can still have your choice of:

- any material and color available
- oval or shell styled integrated sink
- matching or contrasting sink bowl
- right or left side splashes
- single hole, 4" or 8" centres for your faucet
- chrome insert in overflow hole is standard, brass finish is available

Why Choose a Mr.Marble Custom MasterCast™ Vanity Top?

Our custom cast vanity tops not only offer the decorating choices you want, but they also provide many practical benefits other tops can't offer.

- almost unlimited size and shape options
- sinks can be integrated in the same or contrasting color
- seamless sink and top, so they're easier to clean
- the look of stone, but non-porous and lighter weight
- mold, mildew, and stain resistant
- less costly than real stone, and damages can be repaired
- sink and faucet holes are done for you
- wall panels, shower bases, window sills, and accessories can be made to match your new countertop

What You'll Need To Do Before You Can Place Your Order:

Using the 'Vanity Top Planner' sheet provided in the store display, record your choices and design details.

- prepare a rough sketch of the shape with accurate dimensions
- choose Marble, Onyx, Granite, AquaStone™ or AbrakStone™
- note color and number
- measure and note location of sink(s)
- choose your sink, what style and color?
- what edges need to be finished? Backsplashes needed?
- faucets.. 4" or 8" centres? single hole?

Carefully prepare all of the above information before placing your order through a sales person.

DEALER

Mr.Marble MasterCast™ custom vanity tops are carefully handcrafted and inspected. If you detect a manufacturer's defect within the 5 Year Warranty period, we will repair or replace the product. Warranty is limited to materials only.
